Dana,

After additional review and our discussion, please deposit the funds received in the special account (TR2) fund code for payment received to address future response costs. The site team is in the process of reviewing this account to determine the need for future deposits to this account.

Thanks.

Doretha,

I left you message in regards to this payment. Due to the fact this receipt is for the period of 5/1/2013-11/1/2013 the money needs to be placed in TR2, it is an advance payment. HSCR68 is for past cost.  
If there is no future work ongoing at the site the money may need to be returned to the PRP.

Thanks

Dana

It is still a special account but additional funds are currently not needed for future work and should not be deposited in the account; so it is being designated to be deposited in the trust fund. The appropriation noted on the control form is accurate.

Thanks, previously this was a special account. The new control form is marked as trust fund. Please confirm which appropriation should be used?

Thanks  
Dana

Dana,  
Please see the attached control form. There is no additional documentation; the AOC states the PRP is to make payments May 1 and November 1 of each year.

Hello,

Can you please create a control form and send any documentation for the attached payment?

Thanks,
